

Specialist in timber bridge construction, boardwalk construction, bulkheads, golf course bridges and more.

Bridge Builders is the premiere timber bridge contractor in the United States, providing innovative and environmentally conscious construction of custom timber vehicular bridges, public access boardwalk complexes, and light duty bridges for public trails, golf courses and other applications.

As the leading timber bridge contractor nationwide for more than thirty-five years, Bridge Builders™ has constructed more than a thousand projects in commercial and residential developments, parks, and golf courses including building a 780 foot-long bridge in NatureWalk at Seagrove a master planned community in Walton County, Florida – the longest pile-supported HS-25 vehicular timber bridge in the country. No other timber bridge contracting company can match this outstanding record of work.

With a commitment to protect the environment, Bridge Builders'™ *Concept to Completion*© proven formula allows the company to be more than simply a bridge contractor. We manage the total life cycle of a project, working with owners, developers, architects, and general contractors. Our dedicated team of professionals responsible for design, engineering, management, and construction ensure the successful on-time, cost-effective completion of your project.
